Summary

The arachnofauna of Lesbos counted 43 species until now. Members of the Belgian arachnological Society explored the island thoroughly and mention here 292 species occurring on the island. Fortytwo of them are cited for the first time in Greece. These are: sixteen Linyphiidae: *Centromerus albidus* Simon, *Dactylopiastes digiticeps* (Simon), *Hypsocephalus dahli* (Lessert, 1909), *Microctenonyx subitanea* (O.P.-Cambridge), *Microneta viaria* (Blackwall), *Neriere clathrata* Sundevall, *Ostearius melanopygius* (O.P.-Cambridge), *Palliduphantes khobarum* (Charitonov), *Pelecopsis elongata* (Wider), *Pelecopsis krausi* Wunderlich, *Porrhomma pygmaeum* (Blackwall), *Silometopus nitidithorax* Simon, *Tallusia vindobonensis* Kulczyn'ski, *Walckenaeria abantensis* Wunderlich, *Walckenaeria monoceros* (Wider) and *Walckenaeria stylifrons* (O.P.-Cambridge); five Theridiidae: *Dipoena galilaea* Levy, *Dipoena melanogaster* (C.L. Koch), *Paidiscura dromedaria* (Simon), *Phycosoma inornatum* (O.P.-Cambridge) and *Simitidion agaricographum* (Levy & Amitai); two Lycosidae: *Pirata tenuitarsis* Simon and *Trabaea paradoxa* Simon; one Oxyopidae: *Peucetia arabica* (Simon); one Agelenidae: *Agelescape caucasica* Guseinov et al.; four Dictynidae: *Altella lucida* (Simon), *Archaeodictyna consecuta* (O.P.-Cambridge), *Lathys arabs* Simon and *Lathys simplex* (Simon); one Miturgidae: *Cheiracanthium pennatum* Simon; one Liocranidae: *Liocranoeca striata* (Kulczyn'ski); one Zodariidae: *Zodarion granulatatum* Kulczyn'ski; four Gnaphosidae: *Echemus angustifrons* Westring, *Haplodrassus minor* (O.P.-Cambridge), *Haplodrassus morosus* Levy and *Zelotes atrocaeruleus* (Simon); one Philodromidae: *Philodromus bistigma* Simon; four Thomisidae: *Ozyptila sanctuaria* (O.P.-Cambridge), *Xysticus caperatus* Simon, *Xysticus embriki* Kolosvary and *Xysticus pseudorectolineus* Wunderlich; one Salticidae: *Salticus marenzelleri* Nosek. Especially small spider species such as Linyphiidae and Dictynidae appear to be poorly known. All information on localities, numbers, sex, habitat and comments are given.

I. Introduction

The most recent and complete listing of spiders from Greece is the catalogue of BOSMANS & CHATZAKI (2005). In this catalogue, all distribution data of Greek spiders are presented. This includes a total of 856 spider species of which 213 are currently considered to be endemic to the country. The catalogue includes all data on the distribution of Greek spiders, including the catalogue of BRISTOWE (1935), with 373 species reported, and the regional catalogue of the spiders of Attiki by HADJISSARANTOS (1940), with 316 species presented.

Data from Lesbos are very scarce and until now, the arachnofauna of the Eastern Aegean Island Lesbos is very poorly known. Only a few scientists observed spiders on this island and there is only one paper in the literature dealing with the arachnofauna of that part of Greece. In his 'Ergebnisse einer zoologischen Studien- und Sammlungsreise nach die Inseln des Ägäischen Meeres', the German WERNER (1934, 1935) reported on the spiders that were caught during his journeys. His papers mention 13 species from Lesbos: *Palpimanus gibbulus* Dufour, *Eresus cinnaberinus* Olivier, *Steatoda grossa* (C. L. Koch), *Steatoda paykulliana* (Walckenaer), *Agalenatea redii* (Scopoli), *Araneus circe* (Audouin), *Argiope bruennichi* (Scopoli), *Larinioides suspicax* (O.P.-Cambridge), *Geolycosa vultuosa* (C. L. Koch), *Pardosa atomaria* (C. L. Koch), *Olios argelasius* (Walckenaer), *Heriaeus orientalis* Simon and *Thomisus onustus* Walckenaer. All are rather large, common species in the Mediterranean.

The other citations from Lesbos are included in a small number of revisions of genera or families. BRIGNOLI (1976) revised the genus *Scytodes* and reported *S. velutina* Heineken & Lowe from Lesbos. DEELEMEN-REINHOLD & DEELEMEN (1988) revised the genus *Dysdera* from the East Mediterranean region and cited *Dysdera lata* Wider and *D. romantica* Deeleman-Reinhold from Lesbos. BOSMANS (1997) revised the genus *Zodarium* of Central Europe and mentioned *Zodarium frenatum* Simon. Finally there is METZNER's excellent revision of the jumping spiders of Greece published in 1999, in which 24 Salticids are mentioned: *Aelurillus blandus* (Simon), *Ballus chalybeius* (Walckenaer), *Chalcoscirtus infimus* (Simon), *Cyrba algerina* (Lucas), *Euophrys sulphurea* (L. Koch), *Evarcha jucunda* (Lucas), *Habrocestum papilionaceum* (L. Koch), *Heliophanus auratus* C. L. Koch, *Heliophanus equester* L. Koch, *Heliophanus kochii* Simon, *Heliophanus melinus* L. Koch, *Heliophanus tribulosus* Simon, *Hyllus insularis* Metzner, *Macaroeis nidicolens* (Walckenaer), *Menemerus semilimbatus* (Hahn), *Pellenes flavipalpis* (Lucas), *Philaeus chrysops* (Poda), *Phlegra fasciata* (Hahn), *Phlegra lineata* (C. L. Koch), *Plexippoides gestroi* (Dalmás), *Pseudicius kulczynskii* Nosek, *Saitis tauricus* Kulczyn'ski, *Salticus mutabilis* Lucas, *Salticus noordami* Metzner and *Synageles dalmaticus* (Keyserling). Recently, LOGUNOV (2006) added *Xysticus laetus* Thorell, and LOGUNOV & DEMIR (2006) added *Xysticus thessalicus* Simon and *X. thessalicoides* Wunderlich; GASPARO (2007) published a small contribution to the cave spiders of Lesbos, mentioning *Hoplopholcus figulus* Brignoli, *Pholcus phalangioides* Fuesslin and *Tegenaria dalmatica* Kulczyn'ski and LOGUNOV & GUSEINOV (2008) cited *Philodromus rufus* from Lesbos.

This results in a total of 43 species that are actually known from the island Lesbos. *Dysdera romantica* is an endemic species of the Eastern Aegean Islands, and *Salticus noordami* is the only endemic species of Lesbos.

II. Methods and Material

Study area

Lesbos is an island located in the north-eastern Aegean Sea, with an area of 1632 km² and 320 kilometres coastline, making it the third largest Greek island and the largest of the numerous Greek islands scattered in the Aegean. Administratively, it forms part of the Lesbos Prefecture. Its population is approximately 90,000, a third living in its capital, Mytilini, in the south-eastern part of the island. The remaining population is distributed in small towns and villages. Administratively they are: Aghia Paraskevi, Agiasos, Kalloni, Eresos-Andissa, Evergetoula, Gera, Loutropoli Thermis, Petra, Plomari, Polychnitos, Mandamanos and Molyvos (the ancient Mythymna).

The island is mountainous with two large peaks, Oros Lepetymnos (968 m) and Oros Olympus (967 m), dominating its northern and central sections. The island's volcanic origin is manifested in several hot springs. Eleven million olive trees cover 40% of the island together with other fruit trees. Forests of Mediterranean pines, chestnut trees and some oaks occupy 20%, and the remainder is scrub, grassland or urban area. In the western part of the island is the world's second largest petrified forest of Sequoia. There are two important bays: the large bay of Kalloni and the smaller bay of Gera.

Lesbos has a wide range of habitats, including large salt marshes, lowland phrygana (the Greek name for garrigue, Mediterranean vegetation dominated by spiny under shrubs), montane phrygana, flower-rich grassland, pine forest, chestnut and oak forest, fresh water marsh, rocky stream valleys and gorges. Coastal habitats include sandy beaches, reed beds, rocky cliffs and one small saline area. There are a number of caves on the island but these were not visited during the survey; one cave was investigated by GASPARO (2007).

Identification

Identification was carried out by the authors, using keys currently used in temperate Europe and particularly on a long list of papers on the spiders of the Mediterranean. The works of CHATZAKI et al. (2002a, 2002b, 2003) and METZNER (1999) were extremely useful.

Survey periods and methods

The periods of survey were from the 4th to the 12th October 2006 (RB and JVK), from the 25th March to the 4th April 2008 (HDK, JB, JPM, JVK, LB, LM, RB) and from the 30th May to the 9th June 2008 (RB with his son). In addition, some data from the Liverpool and Manchester Museum were added, kindly provided by Dmitri Logunov.

During the survey the majority of sampling was by hand searching but sweep-netting of grassland and beating of shrubs and the lower branches of trees as well as sifting leaf-litter was also used. Sampling of specific micro-habitats include under stones in rock phrygana and grasslands, on walls, on and under the bark of trees (particularly old olive trees). On a number of occasions, pitfall traps were used to sample ground-active species. These included sample areas in salt marshes (Skala Sykoundas, Mesa Sanctuary), in the Mikri Limni marsh, in pine forests (Megali Limni, Steni Klidi) and in *Castanea* forest (Aghiasos). All specimens were preserved in 70% ethanol for subsequent examination and identification; LB collected his specimens in 95 % ethanol for eventual molecular studies.

The following abbreviations are used:

CHDK: Collection Herman De Koninck;

CJB: Collection Jan Bosselaers;

CJVK: Collection Johan Van Keer;

CLB: Collection Léon Baert, Jean-Pierre and Lutgarde Maelfait, deposited in KBIN;

CRB: Collection R. Bosmans;

LMNM: Liverpool Museum, National Museums Liverpool;

MMUM: Manchester Museum, University of Manchester.

Localities

Longitude and latitude coordinates for all sites mentioned in the text are shown in Table 1.

Table 1. Latitude and longitude coordinates for all localities mentioned in the paper.

III Checklist

The following is a checklist of all spider species found on Lesbos. Earlier published records and new observations are grouped separately. For each species, data are given per 'Nomos'. Habitats and microhabitats of the localities are shortly described, and dates, collectors, sexes and number of individuals are given. We also give references where illustrations can be found. If species are figured in HEIMER & NENTWIG (1991), these references are given as they are also available on internet (NENTWIG et al., <http://www.araneae.unibe.ch>). Finally, a short account on distribution and eventual comments are given.

8. Family Ctenizidae

Cyrtocarenum cunicularium (Olivier, 1811)

Identification

Decae, 1996: 164, f. 3, 8, 10, 12, 14, 16, 18, 20, 22.

Citations

None.

Material examined:

AGIASOS: Agiasos S., 1 female, pitfalls in *Castanea* forest, X.2007-IV.2008 (CJVK).
MITHYMNA: Ephtalou-Megala Therma, 1 female, in its tube in small dunes on the beach, 27.III.2008 (CRB).

Distribution

Greece, Turkey.

The specimens collected could not be identified with the literature at our disposition.

Pritha nana (Simon, 1868)

Identification

Heimer & Nentwig, 1991: 38, f. 75.

Citations

None.

New records

EVERGETOULA: Skala Sykoundas NE, 2 males, pitfalls in small dunes near salt marsh, 8.VI.2008 (CRB).
GERA: Evriaki N., Lefkakia beach, 1 female, stones and litter in salt marsh, 2.IV.2008 (CRB).
KALLONI: Agra N., 3 females, stones in grassland, 8.X.2007 (CJVB).
MANDAMADOS: Oros Lepetymos summit, 950m, 1 male, stones in dry grassland, 4.VI.2008 (CRB).
MITHYMNA: between Klio and Skala Sykaminia, 3 females, stones in small *Pinus* forest, 6.X.2007 (CJVK).

Distribution

Mediterranean.

20. Family Filistatidae

Filistata insidiatrix (Forskål, 1775)

Identification

Brignoli, 1982: 68, f. 1-5.

Citations

None.

New records

AGHIA PARASKEVI: Kremasti bridge, 1 female, stones in neglected olive grove, 3.VI.2008 (CRB).
ERESOS-ANDISSA: Meladia valley between Sigri and Eresos, 1 female, stones along rivulet, 6.VI.2008 (CRB); Moni Ypsilou, 4 females, stones in and around monastery, 30.III.2008 (CRB).
KALLONI: Moni Limonos, stones in dry grassland, 1 female, 7.X.2007 (CRB).
MYTILINI: Kedro N., stones in olive grove, 1 female, 10.X.2007 (CRB); road Argenos-Vafios, litter in *Platanus* forest, 1 female, 28.III.2008 (CRB).
POLICHNITOS: Lisvori Spa, 4 females, stones around houses, 31.III.2008 (CRB).

Distribution

Mediterranean to Turkmenistan, Cape Verde Islands.

Filistata n. sp.

Records

MYTILINI: Aghios Georgios S., 1 female, stones in small quarry, 3.III.2008 (CJVK); Haramida, 2 males 1 female 1 juvenile, stones in *Pinus* forest, 3.IV.2008 (CJB).

Comments

21. Family Sicariidae

Loxosceles rufescens (Dufour, 1820)

Identification

Simon, 1914: 75, f. 126.

Citations

None.

New records

AGIASOS: Agiasos N., 1 female, stones and litter in *Pinus* forest, 5.X.2007 (CRB).
ERESOS-ANDISSA: Meladia valley between Sigri and Eresos, 1 female, stones along rivulet, 6.VI.2008 (CRB); Moni Pithariou, 1 juvenile, stones in wasteland near reservoir, 30.III.2008 (CJB).
MYTILINI: Aghios Georgios S., 1 male 1 female, stones in small quarry, 3.IV.2008 (CJVK); Kedro N., 1 female, stones in olive grove, 10.X.2007 (CRB); Koundouroudia, 1 juvenile, stones near the beach, 3.IV.2008 (CJB); Kratigos, 1 juvenile, under stones along road, 3.IV.2008 (CJB); Mytilini, 1 female, slopes of Castro, under stones, 3.IV.2008 (CRB).
PLOMARI: Ambeliko NW, Tyrokomio, 1 male, stones in dry grassland, 9.X.2007 (CJVK).
POLICHNITOS: Polichnitos salt works, 1 female 1 juvenile, stones in *Salicornia* salt marsh, 31.III.2008 (CJB, CRB); Vatera, 1 male, garden of hotel, 9.X.2007 (CJVK); Vrisa N., 2 males, grasses along river, 9.X.2007 (CJVK).

Distribution

Cosmopolitan.

Distribution

Samos, Lesbos, Chios.

Harpactea n. sp. 1

Records

AGIASOS: between Steni Klidi and Megali Limni, 5 females, stones and litter in mixed forest along rivulet, 1.IV.2008 (CHDK, CJVK, CRB).
KALLONI: Anemotia, E. Moni Voukolon, 1 female, stones in grassland, 29.III.2008 (CHDK); Moni Limonos, 2 males 3 females, stones in grassland, 29.III.2008 (CJVK; CRB); Kalloni salt works, 1 male 2 females, stones in *Juncus* marsh, 31.III.2008 (CJVK); road Skala Sykaminias-Aghios Dimitrios, 2 males 2 females, stones in olive groove, 27.III.2008 (CJVK); Skalochoi, 1 female, litter in *Quercus* forest, 7.X.2007 (CRB).
MANDAMADOS: road Klio-Sykaminia, 2 females, stones in small *Pinus* forest, 27.III.2008 (CJVK, CRB).
MITHYMNA: road Argenos-Vafios, 6 females, litter in *Platanus* forest, 28.III.2008, 1 female, 6.X.2007 (CJVK, CRB); Ephtalou-Megala Therma, 1 male 1 female, stones in small dunes on the beach, 27.III.2008 (CJVK); Megali Thermi Spa, 1 male 1 female, litter in neglected olive groove, 4.VI.2007 (CRB); Mithymna S., 1 male, stones in grassland, 26.III.2008 (CRB); road Skala Sykaminias-Aghios Dimitrios, 1 male, stones in olive groove, 27.III.2008 (CRB).
POLICHNITOS: Achladeri W., 1 male 3 females, litter in Eucalyptus forest, 31.III.2008 (CRB); Vatera W., Cape Aghios Fokas, 1 male 1 female, stones in open *Pinus* forest, 1.IV.2008 (CJVK).

Comments

The species will be described in a separate paper.

Harpactea n. sp. 2

Records

AGIASOS: Agiasos, track to Kastelli hill, 1 female, stones in *Pinus* forest, 8.VI.2008 (CRB); W. Megali Limni, Steni Klidi, 2 males, pitfalls in *Pinus* forest, 3.IV.2008 (CRB); idem, 1 male 1 female, together under one stone in *Pinus* forest, 26.III.2008 (CJVK).
PLOMARI: Ambeliko, 1 female, stones in *Pinus* forest, 1.IV.2008 (CRB).

Comments

The species will be described in a separate paper.

Harpactea n. sp. 3

Records

AGIASOS: Agiasos, W. Megali Limni, 1 male, stones at border of grassland, 1.IV.2008 (CRB).

Comments

The species will be described in a separate paper.

Stalagtia n. sp.

Records

AGIASOS: Agiasos S., 1 female, pitfalls in *Castanea* forest, 2 males, X.2007-IV.2008 (CRB); between Megali Limni and Steni Klidi, 2 males, pitfalls in *Pinus* forest, 25.III-3.IV.2008 (CJVK, CHDK).
POLICHNITOS: road Aghios Pavlos-Skamnioudi, 1 juvenile, stones in grassland in olive groove, 30.III.2008 (CJVK).
KALLONI: Skalochoi, 2 males, litter in *Quercus* forest, 7.X.2007 (CRB).

Comments

The species will be described in a separate paper.

35. Family Oonopidae

Oonops cfr. *pulcher* Templeton, 1834

Identification

Thaler, 1981: 107, f. 1, 4, 8.

Records

MANDAMADOS: road Klio-Sykaminia, 1 male, litter and stones in small *Pinus* forest, 27.III.2008 (CJVK).
POLICHNITOS: Vatera W., Cape Aghios Fokas, 1 male 1 female, sieving litter in *Pinus* forest, 1.IV.2008 (CLB).

Comments

The genus *Oonops* is in need of revision. The palp of the specimen collected resembles the drawings of THALER (1981).

Orchestina cfr. *ebriola* Brignoli, 1972

Identification

Brignoli, 1972b: 287, f. 1.

Citations

None.

New records

POLICHNITOS: Achladeri W., 1 male 1 female, litter in Eucalyptus forest, 31.III.2008 (CJVK, CRB).

Distribution

Only known from the island Karpathos.

Comments

The male collected is very similar to *Orchestina ebriola*. A detailed comparison with the type material is necessary to confirm the identification. The female of this species is unknown. The epigyne of the specimen collected is similar to the epigyne of *O. setosa* Simon from France. The genus *Orchestina* is in need of revision.

Orchestina sp.

Records

POLICHNITOS: Vatera W., Cape Aghios Fokas, 1 male, litter in Eucalyptus forest, 31.III.2008 (CJVK).

Comments

The genus *Orchestina* is in need of revision.

Silhouettella loricatula (Roewer, 1942)

Identification

Heimer & Nentwig, 1991: 50, f. 106.

Citations

None.

New records

KALLONI: Kalloni salt works, Alik, 1 female, *Salicornia* salt marsh, 31.III.2008 (CLB).
POLICHNITOS: Achladeri W., 2 males 2 females, litter in Eucalyptus forest, 31.III.2008 (CJB, CJVK); Vatera W., Cape Aghios Fokas, 2 males 1 female, sieving litter in *Pinus* forest, 1.IV.2008 (CHDK, CLB).

Distribution

Europe to Central Asia, N. Africa, Canary Islands.

44. Family Palpimanidae

[*Palpimanus gibbulus* Dufour, 1820]

Comments

This species was cited from Lesbos by WERNER (1934). We only collected *Palpimanus uncatus* on the island, and in large numbers. The citation is considered a misidentification. The species is removed from the list of Lesbos.

Palpimanus uncatus Kulczyn'ski, 1909

Identification

Platnick, 1981: 172, f. 4, 13

Citations

MYTILINI: Mytilini (WERNER, 1934, sub *Palpimanus gibbulus*).

New records

AGHIA PARASKEVI: Kremasti bridge 1 female, stones in neglected olive grove, 3.VI.2008 (CRB).

New records

POLICHNITOS: Achladeri, Vouvari river, 1 female, beating oleander along rivulet, 1.VI.2008 (CRB).

Distribution

Mediterranean to West Africa, Seychelles.

Crustulina scabripes Simon, 1881

Identification

Knoflach, 1994: 332, f. 2, 4, 9a-b, 12-13, 15-17, 21-22, 25, 30, 33, 43-44, 46, 48-52.

Citations

None.

New records

KALLONI: Moni Limonos, 1 female, stones in dry grassland, 7.X.2007 (CJVK).

Distribution

Palaearctic.

Crustulina sticta (O.P.-Cambridge, 1861)

Identification

Heimer & Nentwig, 1991: 282, f. 762.

Citations

None.

New records

EVERGETOULA: Skala Sykoundas NE, 2 males, pitfalls in small dunes near salt marsh, 8.VI.2008 (CJVK, CRB), 1 female, hand collected (CJVK).

MANDAMADOS: road Klio-Sykaminia, 1 female, stones in small *Pinus* forest, 6.X.2007 (CRB).

POLICHNITOS: Achladeri, Vouvari river, 1 male, litter in *Pinus* forest, 1.VI.2008 (CRB).

Distribution

Palaearctic.

***Diploena galilaea* Levy & Amitai, 1981**

Identification

Levy & Amitai, 1981: 166, f. 37-42.

Citations

None.

New records

MANDAMADOS: Oros Lepetymos, E. slope, 700m, 1 male, beating in open *Quercus* forest, 4.VI.2008.

Distribution

Only known from Israel. The species is new to Greece.

Comments

The male of this species is unknown, but was found by one of us (JVK) on Cyprus together with the female, which enabled an identification. The species is atypical for the genus, in having a distinct abdominal pattern. The male palp also is very particular.

***Diploena melanogaster* (C. L. Koch, 1837)**

Identification

Heimer & Nentwig, 1991: 284, f. 763.

 POLICHNITOS: Achladeri W., 1 female, litter in Eucalyptus forest, 31.III.2008 (CLB); road Aghios Pavlos-Skamnioudi, 1 female, stones in grassland in olive groove, 30.III.2008 (CLB); Polichnitos salt works, 3 females, stones in *Salicornia* salt marsh, 31.III.2008 (CLB, CRB); Vasilika NE, Mikri Limni, 2 males 2 females, stones in grassland, 26.III.2008 (CHDK, CRB); Vatera W., Cape Aghios Fokas, 1 female, stones in open *Pinus* forest, 1.IV.2008 (CLB).

Distribution

Southern Europe, North Africa to Central Asia.

Steatoda triangulosa (Walckenaer, 1802)

Identification

Heimer & Nentwig, 1991: 298, f. 798.

Citations

None.

New records

ERESOS-ANDISSA: Moni Ypsilou, 1 female, stones in and around monastery, 30.III.2008 (CRB); road Sigri-Eresos, Meladia valley, 2 females, stones along rivulet, 30.III.2008 (CRB).
 KALLONI: Moni Limonos, 1 male, stones in grassland, 29.III.2008 (CHDK); Parakila NE, 1 female, litter in salt marsh, 7.VI.2006 (CRB); Skala Kalloni, 2 males 1 female, windows of hotel, 6.X.2007 (CRB).
 POLICHNITOS: Lisvori Spa, 1 female, litter and stones in garden, 31.III.2008, 2 females, 2.VI.2008 (CRB).

Distribution

Cosmopolitan.

Theridion adrianopoli Drensky, 1915

Identification

Knoflach, 1997: 133, f. 1-12.

Citations

None.

New records

AGIASOS: Michou, road to Agiasos, 3 females, stones in mixed forest, 31.V.2008 (CRB); Oros Olympos, 700m, 1 female, stones in small *Platanus* forest, 2.VI.2008 (CRB).
 ERESOS-ANDISSA: Moni Pithariou, 1 female, litter in small *Typha* marsh near reservoir, 30.III.2008 (CRB).
 MANDAMADOS: Oros Lepetymos, E. slope, 700m, 1 female, beating in open *Quercus* forest, 4.VI.2008 (CRB).
 MITHYMNA: road Skala Sykaminias-Aghios Dimitrios, 1 female, stones in olive groove, 27.III.2008 (CRB).
 PETRA: Lafionas N., 1 female, stones in open forest, 5.VI.2008 (CRB).
 PLOMARI: Ambeliko, 1 male, stones in *Pinus* forest, 1.IV.2008 (CRB).
 POLICHNITOS: Achladeri, Vouvari river, 1 female, in litter along rivulet, 1.VI.2008 (CRB).

Distribution

Bulgaria, Croatia, Greece, Crete, Turkey.

Theridion cfr. genistae Simon, 1873

Identification

Brignoli, 1967: 193, f. 11A-C.

New records

EVERGETOULA: Skala Sykoundas NE, 1 female, in salt marsh with *Juncus*, 2.IV.2008 (CJVK).
 GERA: Evriaki N., Lefkadia beach, 1 female, pitfalls in salt marsh, 26.III.2008 (CJVK).
 KALLONI: Kalloni salt works, 1 female, herbs in salt marsh, 31.III.2008 (CLB).

Comments

These specimens are identical to or at least closely related to *Theridion genistae*, but in absence of males this has to be confirmed.

Theridion cfr. melanurum Hahn, 1831

ERESOS-ANDISSA: Moni Pithariou, 1 male 2 females, beating bushes near reservoir, 30.III.2008, 1 female, 7.VI.2008 (CRB).
KALLONI: Parakila NE, 1 female, litter in salt marsh, 7.VI.2006 (CRB); summit Profitis Ilias, 790m, 1 male, beating bushes in mixed forest, 1.VI.2009 (CRB).
MITHYMNA: Mithymna E., 1 female, litter in garden, 6.X.2007 (CRB).
POLICHNITOS: Achladeri, Vouvari river, 1 female in litter along rivulet, 1.VI.2008 (CRB); Aghios Pavlos E., 1 male, pitfall in *Juncus* marsh, 11.X.2007 (CRB); Lisvori Spa, 2 males 1 female, litter and stones in garden, 2.VI.2008 (CRB); road Skala Sykaminias-Aghios Dimitrios, 1 female, stones in olive groove, 27.III.2008 (CHDK).

Distribution

Cosmopolitan.

Walckenaeria abantensis Wunderlich, 1995

Identification

Wunderlich, 1995: 669, f. 83, 88; present paper, f. 20-23.

Citations

None.

New records

AGIASOS: Agiasos S., 3 males 4 females in pitfalls in *Castanea* forest, X.2007-IV.2008 (CJVK, CRB).

Distribution

The species was until now only known from Anatolia in Turkey and is new to Greece.

Walckenaeria antica (Wider, 1834)

Identification

Heimer & Nentwig, 1991: 268, f. 716.

Citations

None.

New records

AGIASOS: between Steni Klidi and Megali Limni, 2 females, stones and litter in mixed forest along rivulet, 1.IV.2008 (CHDK); Megali Limni W., Steni Klidi, 1 female, pitfalls in *Pinus* forest, 3.IV.2008 (CRB).

Distribution

Europe.

Walckenaeria monoceros (Wider, 1834)

Identification

Heimer & Nentwig, 1991: 270, f. 718.

Citations

None.

New records

GERA: Evriaki NE, Lefkakia beach, 1 female, pitfalls in salt marsh, 2.IV.2008 (CJVB).
MITHYMNA: Mithymna, slopes of the castle, 1 female, litter in *Pinus* forest, 28.III.2008 (CLB).

Distribution

Europe to Central Asia. New to Greece.

Walckenaeria stylifrons (O. P.-Cambridge, 1875)

Identification

Heimer & Nentwig, 1991: 270, f. 720.

Citations

None.

New records

AGIASOS: Agiasos S., 1 male, pitfalls in *Castanea* forest, X-2007-IV.2008 (CJVK); Agiasos, W. Megali Limni, Steni Klidi, 1 female, pitfalls in *Pinus* forest, 3.IV.2008 (CJVK).

Distribution

Europe. New to Greece.

64. Family Tetragnathidae

Pachygnatha degeeri Sundevall, 1830

PETRA: Lafionas N., female, beating bushes in open forest, 5.VI.2008 (CRB).

Distribution

Europe, North Africa, North America.

Lathys arabs Simon, 1910

Identification

Present paper, f. 34-40.

Records

AGIASOS: Oros Olympos E, 1 female, beating *Hedera* in small valley, 2.VI.2008 (CRB).

POLICHNITOS: Achladeri, 1 female, bark of Eucalyptus, 5.X.2007 (CRB); Vatera W., Cape Aghios Fokas, 1 female, stones in open *Pinus* forest, 1.IV.2008 (CLB).

Distribution

Only known from Algeria, but probably with a much wider distribution in the Mediterranean region. First record in Greece.

Comments

Some females collected are very similar to *Lathys stigmatisata* (Menge) but differ by the smaller epigynal orifices and the presence of two pairs of longitudinal loops (fig. 37) in the fertilisation ducts in the epigyne (one pair in *L. stigmatisata*). Two pairs of transverse ducts are typical for *Lathys arabs* Simon (fig. 38), a species only known from Algeria and considered a synonym of *Lathys stigmatisata*. The species will be redescribed in a further paper.

Lathys humilis (Blackwall, 1855)

Identification

Heimer & Nentwig, 1991: 380, f. 984.

Citations

None.

New records

AGIASOS: Oros Olympos E, 1 female, beating *Hedera* in small valley, 2.VI.2008 (CRB).

Distribution

Palaearctic, New Zealand.

Comments

Until now, the species was only known from continental Greece.

Lathys simplex (Simon, 1884)

Identification

Wiehle, 1960: 469, f. 13, present paper, f. 41-45.

Citations

None.

New records

AGIASOS: Megali Limni W., Steni Klidi, 1 male, pitfalls in *Pinus* forest, 13.IV.2008 (CRB).

Distribution

Algeria, Ukraine (as *Lathys simplex*), France, Croatia (as *Lathys heterophthalmus*). New to Greece.

Comments

Lathys simplex (Simon, 1884) is widespread in the Mediterranean region but rarely found. Males and females are

easily distinguished from other *Lathys* species by the elongated conductor in the male and the elongated fertilisation ducts in the female (f. 41–45). It is a junior synonym of *Lathys heterophthalmus* Kulczyn'ski, 1891, as will be explained in a further paper.

***Marylinia bicolor* (Simon, 1870)**

AGIASOS: Megali Limni W., 2 females, Steni Klidi, pitfalls in *Pinus* forest, 3.IV.2008 (CJVK, CRB).

KALLONI: Skala KALLONI, 1 female, litter in garden of hotel, 6.X.2007 (CRB).

POLICHNITOS: Aghia Pavlos E., 4 males 1 female, pitfall in *Juncus* marsh, 11.X.2007 (CJVK, CRB); Polichnitos salt works, 2 females, stones in *Salicornia* salt marsh, 31.III.2008 (CRB); Vatera, 1 male, litter in garden of hotel, 9.X.2007 (CRB).

Comments

The species will be described in a separate paper.

Liocranoeca striata (Kulczyn'ski, 1882)

Identification

Heimer & Nentwig, 1991: 388, f. 1011.

Citations

None.

New records

EVERGETOULA: Skala Sykoundas NE, 4 males, pitfalls in salt marsh, 3.IV.2008 (CHDK, CJVK, CRB).

GERA: Evriaki, Lefkakia beach, 1 male, stones and litter in salt marsh, 2.IV.2008 (CJVK).

POLICHNITOS: Vasilika NE, Mikri Limni, 3 males 2 females, pitfalls in marshy area, 8.VI.2008 (CRB).

Distribution

Europe, Russia. New to Greece.

Mesiotelus skopensis Drensky, 1936, sensu Hadjissarantos, 1940

Identification

Hadjissarantos, 1940, f. 32H; present paper, f. 29-33.

Citations

None.

New records

AGHIA PARASKEVI: Galatovouni, 1 male 2 females, along rivulet in *Pinus* forest, 27.III.2008 (CJVK).

AGIASOS: Megali Limni, 3 males 1 female, stones at border of *Pinus* forest and grassland, 1.IV.2008, 2 males, pitfalls at same site, 5-12.X.2007 (CHVK); between Steni Klidi and Megali Limni, 2 females, stones and litter in mixed forest along rivulet, 1.IV.2008 (CHDK, CJB).

ERESOS-ANDISSA Moni Perivelos, 1 male, stones in *Castanea* forest, 7.X.2007 (CJVK); Moni Pithariou, 1 female, stones in wasteland near reservoir, 30.III.2008 (CJB).

KALLONI: Moni Limonos, 1 male, stones in grassland, 7.X.2007 (CJVK).

POLICHNITOS: Polichnitos salt works, 5 females, stones in *Salicornia* salt marsh, 31.III.2008 (CJB).

Distribution

Mediterranean region to Turkmenistan.

Comments

The genus *Mesiotelus* is in need of revision. The males mentioned above agree completely with the males figured by

Hadjissarantos (1940), but we have doubts about the conspecificity with the females figured by Drensky (1936).

***Mesiotelus tenuissimus* (L. Koch, 1866)**

Identification

Kovblyuk et al., 2008: 19, f. 6-12; present paper, f. 24-28.

New records

AGIASOS: Agiasos S., stones in *Castanea* forest, 3 females, 2.IV.2008 (CJB, CJVK); Megali Limni, 2 males, pitfalls in *Pinus* forest, 11.X.2007 (CRB).
KALLONI: road Anemotia-Skala Kallonis, 2 females, Karyo, litter and herbs along rivulet, 29.III.2008 (CJB, CJVK); Skalochoi, 1 male, litter in *Quercus* forest, 7.X.2007 (CRB).
ERESOS-ANDISSA: Moni Ypsilou, 3 females, stones in and around monastery, 30.III.2008 (CJB, CJVK).
MITHYMNA: Mithymna E., 1 male 1 female, litter in garden, 6.X.2007 (CRB); road Vafios-Arghos, 1 male, litter in dry river bed below *Platanus*, 6.X.2007 (CRB); Vafios E., 2 females, stony grassland and shrubs, 28.III.2008 (CLB, CRB).
MYTILINI: Koundouroudia N., 1 male, stones on the shore, 11.X.2007 (CRB).
POLICHNITOS: Aghios Pavlos E., 3 males, pitfall in *Juncus* marsh, 11.X.2007 (CJB, CRB); Vatera, 1 female, litter in garden of hotel, 9.X.2007 (CRB).

Distribution

Southern Europe, Syria.

Ozyptila sanctuaria (O. P.- Cambridge, 1871)

Identification

Heimer & Nentwig, 1991: 472, f. 1240.

Citations

None.

New records

KALLONI: Agra N., 1 male 1 subadult female, stones in dry grassland, 8.X.2005 (CRB).
Moni Limonos, stones in dry grassland, 1 male, 7.X.2007 (CRB); Skalochoi, litter in *Quercus* forest, 1 male, 7.X.2007 (CRB).

Distribution

Europe. New to Greece.

Ozyptila sp. 1

Records

AGIASOS: Megali Limni, 2 males, pitfalls in *Pinus* forest, 12.X.2007 (CJB, CJVK).

Comments

The specimens collected could not be identified.

Runcinia grammica (C. L. Koch, 1837)

Identification

Heimer & Nentwig 1991: 476, f. 1252.

Citations

None.

New records

ERESOS-ANDISSA: Moni Pithariou, 5 males 2 females, beating bushes near reservoir, 7.VI.2008 (CRB).
GERA: Evriaki N., Lefkadia beach, 8 males 2 subadult females, beating tamarisk along salt marsh, 31.V.2008 (CRB).
PETRA: Lafionas N., 1 female, beating bushes in open forest, 5.VI.2008 (CRB).
POLICHNITOS: Achladeri, Vouvari river, 1 male, beating oleander along rivulet, 1.VI.2008 (CRB); Lisvori Spa, 7 males 1 subadult female, beating grasses and herbs in garden, 2.VI.2008 (CRB).

Distribution

Paleartic, St Helena, South Africa.

Synaema globosum Walckenaer, 1805

Identification

Heimer & Nentwig, 1991: 478, f. 1254

Citations

Lesbos: Mytilini (WERNER, 1934).

New records

PETRA: Lafionas N., 1 male 1 female, beating bushes in open forest, 5.VI.2008 (CRB).

Distribution

Paleartic.

Thomisus onustus Walckenaer, 1805

Identification

Heimer & Nentwig, 1991: 478, f. 1254

Citations

Lesbos: Mytilini (WERNER, 1934).

New records

ERESOS-ANDISSA: Moni Pithariou, 1 female, beating bushes near reservoir, 7.VI.2008 (CRB).
KALLONI: Skala Kalloni W., Kali Langada, 2 males, beating along dense forest, 1.VI.2009 (CRB).
POLICHNITOS: Lisvori Spa, 1 male 1 female, beating grasses and herbs in garden, 2.VI.2008 (CRB).

Distribution

Paleartic.

Tmarus piochardi (Simon, 1866)

Identification

Levy, 1973: 116, f. 20-23; Levy, 1985b: 25, f. 24-27.

Citations

None.

New records

AGIASOS: Megali Limni, 1 male 1 female, beating in *Pinus* forest, 8.VI.2008 (CRB); Michou, road to Agiasos, 1 male 1 female, beating in mixed forest, 31.V.2008 (CRB); Oros

Olympos, 700m, 2 males 1 female, beating in small *Platanus* forest, 2.VI.2008 (CRB).
PETRA: Lafionas N., 1 male, beating bushes in open forest, 5.VI.2008 (CRB).
POLICHNITOS: Achladeri, Vouvari river, 1 female, beating oleander along rivulet, 1.VI.2008 (CRB); Vatera W., Cape Aghios Fokas, 1 male 1 subadult female, beating in open *Pinus* forest, 1.IV.2008 (CJB).

Distribution
Mediterranean.

Xysticus acerbus Thorell, 1872

Identification
Heimer & Nentwig, 1991: 480, f. 1268.

Citations
None.

New records
AGIASOS: Agiasos S., 1 male, stones in *Castanea* forest, 2.IV.2008 (CJB).

Distribution
Europe to Central Asia.

Xysticus bufo (Dufour, 1820)

Identification
Levy, 1985: 88, f. 131-132.

Citations
None.

New records
POLICHNITOS: Aghia Pavlos E., 3 males, pitfall in *Juncus* marsh, 11.X.2007 (CJVK, CRB).

Distribution
Mediterranean.

Xysticus caperatus Simon, 1875

Identification
Levy, 1976: 12, f. 18-21; Levy, 1985b: 84, f. 123-126.

Citations
None.

New records
KALLONI: Ancient Andissa, 1 female, stones and litter near small dune pond, 5.VI.2008 (CRB).
POLICHNITOS: Lisvori Spa, 1 male, beating grasses and herbs in garden, 2.VI.2008 (CRB).

Distribution
Mediterranean, Russia. New to Greece.

Xysticus embriki Kolosvary, 1935

Identification
Marusik & Logunov, 1995: 154, f. 40-41.

Citations
None.

New records
POLICHNITOS: Vasilika 3km NE, 1male, stones in dry grassland, 5.X.2007 (CJVK).

Distribution

Austria to Kazakhstan. New to Greece.

Xysticus laetus Thorell, 1875

Identification
Logunov, 2006: 62, f. 5-6, 13-20.

Citations
Lesbos: Mytilini castle; Skala Kallonis (Logunov, 2006).

New records
EVERGETOULA: Skala Sykoundas NE, 1 male, pitfalls in salt marsh, 3.IV.2008 (CHDK).
GERA: Evriaki NE, Lefkakia beach, 1 female, stones in salt marsh, 2.IV.2008 (CJVK).
POLICHNITOS: Polichnitos salt works, 1 male, on *Salicornia* bushes, 31.III.2008 (CJVK).

Distribution
Italy to Central Asia.

Xysticus pseudorectilineus (Wunderlich, 1995)

Identification
Wunderlich, 1995: 764, f. 52-53.

Citations
None.

New records
ERESOS-ANDISSA: Moni Pithariou, 30 females, litter in small *Typha* marsh, 7.VI.2008 (CHDK, CJB, CJVK, CLB, CRB); road Sigri-Eresos, 1 female, Meladia valley, stones along rivulet, 30.III.2008 (CJVK).
KALLONI: Anemotia, E. Moni Voukolon, 15 females, stones in grassland, 29.III.2008 (CHDK, CJVK, CLB, CRB); Moni Limonos, 3 males 2 females, stones in dry grassland, 7.X.2007, 3 females, 23.III.2008 (CHVK, CJVK, CRB).
MANDAMADOS: road Klio-Sykaminia, 1 male 1 female, litter and stones in small *Pinus* forest, 6.X.2007, 2 females, 27.III.2008 (CHDK, CJVK, CRB).
MITHYMNA: road Argenos-Vafios, 2 females, litter in *Platanus* forest, 28.III.2008 (CHDK, CRB); Ephtalou-Megala Therma, 6 females, stones in small dunes on the beach, 27.III.2008 (CJVK, CRB); Mithymna, 2 females, slopes of the castle, stones in grassland, 28.III.2008 (CHDK, CJB); Mithymna, road to Petra, 2 females, stones in grassland, 26.III.2008 (CHDK, CJVK); Vafios E., 4 females, stony grassland and shrubs, 28.III.2008 (CJB, CJVK).
MYTILINI: Aghios Georgios N., 1 female, stones in wasteland, 3.IV.2008 (CHDK); Aghios Georgios S., 2 females in small quarry, 3.IV.2008 (CJVK); Kratigos, 1 female under stones along road, 3.IV.2008 (CJB).
POLICHNITOS: Achladeri W., 1 female, litter in Eucalyptus forest, 31.III.2008 (CRB); Vrisa N., 1 male, stones along river, 9.X.2007 (CJVK).

Distribution
Only known from Turkey until now. New to Greece.

Xysticus thessalicoides Wunderlich, 1995

Identification
Wunderlich 1995: 753, f. 8-19.

Citations
KALLONI:Skala Kallonis; (LOGUNOV & DEMIR, 2006).
POLICHNITOS: Vatera (LOGUNOV & DEMIR, 2006).

New records

AGHIA PARASKEVI: Kremasti bridge, beating oleander along rivulet, 1 female, 3.VI.2008 (CRB).

AGIASOS: Agiasos: Megali Limni, 8 males 7 females, beating in *Pinus* forest, 5.VI.2008 (CRB); summit of Oros Olympos, 950m, 1 male, stones in dry landscape, 2.VI.2008 (CRB); Oros Olympos, 700m, 1 female, beating in small *Platanus* forest, 2.VI.2008 (CRB).

ERESOS-ANDISSA: Moni Pithariou, 1 male, beating bushes near reservoir, 30.III.2008 (CHDK).

GERA: Evriaki N., Lefkakia beach, 1 male, stones and litter in salt marsh, 2.IV.2008 (CJB).

KALLONI: Agra N., 6 females, stones in grassland, 1.VI.2008 (CRB); Agra NE, Rouso Vounari, 1 female, stones in *Pinus* forest, 1.VI.2008 (CRB); Anemotia, E. Moni Voukolon, 3 males,

beating bushes in olive grove, 29.III.2008 (CJB, CJVK, CRB); Skala Kalloni W., 2 males, Kali Langada, beating along dense forest, 1.VI.2009 (CRB).

MITHYMNA: Megali Thermi Spa, 1 female, beating bushes in neglected olive grove, 4.VI.2007 (CRB); Mithymna, slopes of the castle, 1 male, litter in *Pinus* forest, 28.III.2008 (CHDK).

MYTLINI: Aghios Georgios N., 1 male, stones in wasteland, 3.IV.2008 (CJVK).

PETRA: Lafionas N., 5 females, beating bushes in open forest, 5.VI.2008 (CRB).

POLICHNITOS: Achladeri, Vouvari river, 1 female, beating oleander along rivulet, 1.VI.2008 (CRB); Lisvori Spa, 1 female, beating grasses and herbs in garden, 2.VI.2008 (CRB); Vatera W., Cape Aghios Fokas, 1 male, beating in open *Pinus* forest, 1.IV.2008 (CRB).

Distribution

South Europe to Mediterranean.

Heliophanus tribulosus Simon, 1868

Identification

Heimer & Nentwig, 1991: 504, f. 1346; Metzner, 1999: 100, f. 65a-j.

Citations

AGIASOS: Agiasos (METZNER, 1999).

New records

AGIASOS: between Steni Klidi and Megali Limni, 1 female, beating in mixed forest along rivulet, 31.V.2008 (CRB).
KALLONI: Agra NE, Rouso Vounari, 1 male 1 female, beating in *Pinus* forest, 1.VI.2008 (CRB); summit Profitis Ilias, 790m, 1 female, beating bushes in mixed forest, 1.VI.2009 (CRB).
POLICHNITOS: Vatera W., Cape Aghios Fokas, 5 males, beating in open *Pinus* forest, 1.IV.2008 (CJVK, CJB).
MANDAMADOS: Oros Lepetymos, E. slope, 700m, 1 female, beating in open *Quercus* forest, 4.VI.2008 (CRB).

Distribution

Mediterranean Europe to Kazakhstan.

Hyllus insularis Metzner, 1999

Identification

Metzner, 1999: 150, f. 115a-f; Logunov, 2001b: 60, f. 4-7.

Citations

AGIASOS: Agiasos (type locality; METZNER, 1999).

New records

None.

Distribution

Greece (only Lesbos) to Iran (Logunov, 2001b).

Leptorchestes sp.

Records

AGIASOS: road Agiasos-Plomari, litter in *Castanea* forest, 1 subadult female, 8.VI.2008 (CRB).

Comments

The subadult female cannot be identified to species level, but proves the existence of the genus on the island.

Distribution

Mediterranean.

Discussion

Before the excursions of the Belgian Arachnological Society to Lesbos, 43 spider species were known from the island. Actually, at least 294 have been observed on Lesbos (annex 1), but not all could be identified to species level yet. Twelve species are most probably new to science and will be described in separate papers. They belong to the following families: Agelenidae (one *Tegenaria* species), Amaurobiidae (one *Amaurobius* species), Dysderidae (three *Harpactea* species and one *Stalagtia* species), Filistatidae (genus *Filistata*), Linyphiidae (genera *Diplocephalus*, *Letphyphantes*, *Palliduphantes* and *Tapinocyba*, each with one species) and Liocranidae (one *Agroeca* species). One more species has already been described by one of us: *Arabelia pheidoleicomis* Bosselaers. Two species were erroneously cited from Lesbos: *Palpimanus gibbulus* (misidentified for *P. uncatus*) and *Heriaues orientalis* (misidentified for *H. simoni*).

Fortytwo species are cited here for the first time in Greece. Species belonging to the family Linyphiidae are dominant in this list and appear to be very poorly known. They are: *Centromerus albidus* Simon, *Dactylopisthes digiticeps* (Simon), *Hypsocephalus dahli* (Lessert, 1909), *Microctenonyx subitanea* (O.P.-Cambridge), *Microneta viaria* (Blackwall), *Neriene clathrata* Sundevall, *Ostearius melanopygius* (O.P.-Cambridge), *Palliduphantes khobarum* (Charitonov), *Pelecopsis elongata* (Wider), *Pelecopsis krausi* Wunderlich, *Porrhomma pygmaeum* (Blackwall), *Silometopus nitidithorax* Simon, *Tallusia vindobonensis* Kulczyn'ski, *Walckenaeria abantensis* Wunderlich, *Walckenaeria monoceros* (Wider) and *Walckenaeria stylifrons* (O.P.-Cambridge). Among them are some very common European spiders, but never collected in Greece yet. Five Theridiidae are new to Greece: *Dipoena galilaea* Levy, *Dipoena melanogaster* (C.L. Koch), *Paidiscura dromedaria* (Simon), *Phycosoma inornatum* (O.P.-Cambridge) and *Simitidion agaricographum* (Levy & Amitai), *Dipoena galilaea* and *Simitidion agaricographum* are only recently described species. Gnaphosidae also count for four new species: *Echemus angustifrons* Westring, *Haplodrassus minor* (O.P.-Cambridge), *Haplodrassus morosus* Levy and *Zelotes atrocaeruleus* (Simon); especially *Echemus angustifrons* is remarkable, because it is very rare in Europe. Thomisidae have four new species: *Ozyptila sanctuaria* (O.P.-Cambridge), *Xysticus caperatus* Simon, *Xysticus embriki* Kolosvary and *Xysticus pseudorectolineus* Wunderlich. Another family with small species are the Dictynidae. *Altella lucida* (Simon), *Archaeodictyna consecuta* (O.P.-Cambridge), *Lathys arabs* Simon and *Lathys simplex* (Simon) are cited here for the first time in Greece. Two Lycosidae are new to Greece: *Pirata tenuitarsis* Simon and *Trabaea paradoxa* Simon. There is one species belonging to the Agelenidae: *Agelescape caucasica* Guseinov et al.; it was only recently described from the Caucasus. There are some more families with one new species for Greece added: Miturgidae, with *Cheiracanthium pennatum* Simon; Liocranidae, with *Liocranoeca striata* (Kulczyn'ski); Oxyopidae, with *Peucetia arabica* (Simon); Philodromidae, with *Philodromus bistigma* Simon; Zodariidae, with *Zodarion granulatum* Kulczyn'ski; Salticidae, with *Salticus marenzelleri* Nosek. This last family appears to be the best known in Greece, thanks to the work of METZNER (1999).

Compared to other Greek islands, Lesbos is now the richest in species (table 1). Even Crete, which is five times larger, has less species. Of course this is no reality, it gives only proof that Greek spiders are poorly studied.

Table 1. Area of the ten largest Greek islands and the number of spider species on each island (based on data of Bosmans & Chatzaki, 2005 and present data for Lesbos).

Island	Area (km ²)	Number of species
Crete	8345	289
Evvoia	3658	84
Lesbos	1630	292
Rhodos	1400	232
Chios	842	28
Kefalonia	780	71
Kerkyra	593	154
Samos	476	34
Limnos	460	12

Salticidae appear to be the richest in species on Lesbos (table 2), what is commonly known in the Mediterranean region. It is unexpected to see Linyphiidae on the second place. This is probably mainly due to an excursion in autumn, when many species of Linyphiidae become adult. Also several more females were found, that could not

be identified to genus level and these are not included in the list. Theridiidae and Gnaphosidae have respectively 36 and 35 species.

Table 2. Number of species on Lesbos per family.

Family	Nr of species	Family	Nr of species
Salticidae	40	Mimetidae	3
Linyphiidae	38	Miturgidae	3
Theridiidae	36	Oxyopidae	3
Gnaphosidae	35	Sparassidae	3
Thomisidae	17	Amaurobiidae	2
Araneidae	17	Eresidae	2
Lycosidae	16	Oecobiidae	2
Dictynidae	12	Scytodidae	2
Philodromidae	12	Uloboridae	2
Dysderidae	8	Anyphaenidae	1
Agelenidae	6	Clubionidae	1
Zodariidae	6	Ctenizidae	1
Liocranidae	4	Hahniidae	1
Oonopidae	4	Palpimanidae	1
Pholcidae	4	Segestriidae	1
Tetragnathidae	4	Sicariidae	1
Corinnidae	3	Titanoecidae	1
Filistatidae	3	Zoropsidae	1

Addendum 1. List of spider species of Lesbos.

(species marked with o: incorrectly identified in the past)

Nr	Nr	Family	Species	New to Lesbos	New to Greece	New to science
1	1	Ctenidae	<i>Cyrtocarenum cucicularium</i> (Olivier, 1811)	x		
2	1	Filistatidae	<i>Filistata insidiatrix</i> (Forskål, 1775)	x		
3	2	Filistatidae	<i>Filistata</i> n. sp.			x
4	3	Filistatidae	<i>Pritha nana</i> (Simon, 1868)	x		
5	1	Sicariidae	<i>Loxosceles rufescens</i> (Dufour, 1820)	x		
6	1	Scytodidae	<i>Scytodes thoracica</i> (Latreille, 1802)	x		
7	2	Scytodidae	<i>Scytodes velutina</i> Heineken en Lowe, 1832	x		
8	1	Pholcidae	<i>Holocnemis pluchei</i> (Scopoli, 1763)	x		
9	2	Pholcidae	<i>Hoplopholcus figulus</i> Brignoli, 1971			
10	3	Pholcidae	<i>Pholcus phalangioides</i> (Fuesslin, 1775)			
11	4	Pholcidae	<i>Spermophora senoculata</i> (Dugès, 1836)	x		
12	1	Segestriidae	<i>Segestria florentina</i> (Rossi, 1790)	x		
13	1	Dysderidae	<i>Dysdera crocata</i> C. L. Koch, 1838	x		
14	2	Dysderidae	<i>Dysdera lata</i> Wider, 1834	x		
15	3	Dysderidae	<i>Dysdera</i> cfr. <i>longimandibularis</i> Nosek, 1905			
16	4	Dysderidae	<i>Dysdera romantica</i> Deeleman-Reinhold, 1988			
17	5	Dysderidae	<i>Harpactea</i> n. sp. 1			x
18	6	Dysderidae	<i>Harpactea</i> n. sp. 2			x
19	7	Dysderidae	<i>Harpactea</i> n. sp. 3			x
20	8	Dysderidae	<i>Stalagtian</i> sp.			x
21	1	Oonopidae	<i>Oonops</i> cfr. <i>pulcher</i> Templeton, 1834			
22	2	Oonopidae	<i>Orchestina</i> cfr. <i>ebriola</i> Brignoli, 1972			
23	3	Oonopidae	<i>Orchestina</i> sp.			
24	4	Oonopidae	<i>Silhouettella loricatula</i> (Roewer, 1942)	x		
25	1	Palpimanidae	<i>Palpimanus uncatus</i> Kulczyn'ski, 1909	o		
26	1	Mimetidae	<i>Ero flammeola</i> Simon, 1881	x		
27	2	Mimetidae	<i>Ero tuberculata</i> (De Geer, 1778)	x		
28	3	Mimetidae	<i>Mimetus laevigatus</i> (Keyserling, 1863)	x		
29	1	Eresidae	<i>Eresus walckenaeri</i> Brullé, 1832			
30	2	Eresidae	<i>Stegodyphus lineatus</i> (Latreille, 1817)	x		
31	1	Oecobiidae	<i>Oecobius maculatus</i> Simon, 1870	x		
32	2	Oecobiidae	<i>Uroctea durandi</i> (Latreille, 1809)	x		
33	1	Uloboridae	<i>Hyptiotes flavidus</i> (Blackwall, 1862)	x		
34	2	Uloboridae	<i>Uloborus plumipes</i> Lucas, 1846.	x		
35	1	Linyphiidae	<i>Canariphantes</i> sp.			
36	2	Linyphiidae	<i>Centromerus albidus</i> Simon, 1929	x	x	
37	3	Linyphiidae	<i>Cresmatoneta mutinensis</i> (Canestrini, 1868)	x		
38	4	Linyphiidae	<i>Dactylopiastes digiticeps</i> (Simon, 1881)	x	x	
39	5	Linyphiidae	<i>Diplocephalus graecus</i> (O. P.-Cambridge, 1872)	x		
40	6	Linyphiidae	<i>Diplocephalus turcicus</i> Brignoli, 1995	x		
41	7	Linyphiidae	<i>Diplocephalus</i> n. sp.			x
42	8	Linyphiidae	<i>Erigone dentipalpis</i> (Wider, 1834)	x		
43	9	Linyphiidae	<i>Frontinellina frutetorum</i> (C. L. Koch, 1834)	x		
44	10	Linyphiidae	<i>Hypsocephalus dahli</i> (Lessert, 1909),			
45	11	Linyphiidae	<i>Lepthyphantes leprosus</i> (Ohlert, 1865)	x		

46	12	Linyphiidae	<i>Lepthyphantes</i> n. sp.			x
47	13	Linyphiidae	<i>Linyphia mimonti</i> Simon, 1884	x		
48	14	Linyphiidae	<i>Megalepthyphantes lydiae</i> Wunderlich, 1994	x		
49	15	Linyphiidae	<i>Meioneta pseudorurestris</i> Wunderlich, 1980	x		
50	16	Linyphiidae	<i>Microctenonyx subitaneus</i> (O.P.-Cambridge, 1875)	x	x	
51	17	Linyphiidae	<i>Microlinyphia pusilla</i> (Sundevall, 1830)	x		
52	18	Linyphiidae	<i>Microneta viaria</i> (Blackwall, 1841)	x	x	
53	19	Linyphiidae	<i>Nerene clathrata</i> Sundevall, 1830	x	x	
54	20	Linyphiidae	<i>Nerene furtiva</i> (O. P.-Cambridge, 1871)	x		
55	21	Linyphiidae	<i>Oedothorax apicatus</i> (Blackwall, 1850)	x		
56	22	Linyphiidae	<i>Ostearius melonopygius</i> (O.P.-Cambridge, 1879)	x	x	
57	23	Linyphiidae	<i>Palliduphantes byzanthinus</i> (Fage, 1931)		x	x
58	24	Linyphiidae	<i>Palliduphantes khobarum</i> (Charitonov, 1947)	x	x	x
59	25	Linyphiidae	<i>Pelecopsis elongata</i> (Wider, 1834)	x	x	
60	26	Linyphiidae	<i>Pelecopsis krausi</i> Wunderlich, 1980	x	x	
61	27	Linyphiidae	<i>Porrhomma pygmaeum</i> (Blackwall, 1834)	x	x	
62	28	Linyphiidae	<i>Prinerigone vagans</i> (Audouin, 1826)	x		
63	29	Linyphiidae	<i>Silometopus nidithorax</i> Simon, 1914	x	x	
64	30	Linyphiidae	<i>Sintula retroversus</i> (O. P. -Cambridge, 1875)	x		
65	31	Linyphiidae	<i>Tallusia vindobonensis</i> Kulczyn'ski, 1898	x	x	
66	32	Linyphiidae	<i>Tapinopa</i> sp.			
67	33	Linyphiidae	<i>Tapinocyba</i> n. sp.			x
68	34	Linyphiidae	<i>Tenuiphantes tenuis</i> (Blackwall, 1852)	x		
69	35	Linyphiidae	<i>Walckenaeria abantensis</i> Wunderlich, 1995	x	x	
70	36	Linyphiidae	<i>Walckenaeria antica</i> (Wider, 1834)	x		
71	37	Linyphiidae	<i>Walckenaeria monoceros</i> (Wider, 1834)	x	x	
72	38	Linyphiidae	<i>Walckenaeria stylifrons</i> (O. P.-Cambridge, 1875)	x	x	
73	1	Theridiidae	<i>Argyrodus argyrodus</i> (Walckenaer, 1842)	x		
74	2	Theridiidae	<i>Crustulina scabripes</i> Simon, 1881	x		
75	3	Theridiidae	<i>Crustulina sticta</i> (O.P.-Cambridge, 1861)	x		
76	4	Theridiidae	<i>Dipoena galilaea</i> Levy, 1981	x	x	
77	5	Theridiidae	<i>Dipoena melanogaster</i> (C. L. Koch, 1837)	x	x	
78	6	Theridiidae	<i>Enoplognatha afrodite</i> Hippa & Oksala, 1983	x		
79	7	Theridiidae	<i>Enoplognatha diversa</i> (Blackwall, 1859)	x		
80	8	Theridiidae	<i>Enoplognatha gemina</i> Bosmans & Van Keer, 1999	x		
81	9	Theridiidae	<i>Enoplognatha giladensis</i> (Levy & Amitai, 1982)	x		
82	10	Theridiidae	<i>Enoplognatha macrochelis</i> Levy & Amitai, 1981	x		
83	11	Theridiidae	<i>Enoplognatha penelope</i> Hippa & Oksala, 1982	x		
84	12	Theridiidae	<i>Enoplognatha quadripunctata</i> Simon, 1884	x		
85	13	Theridiidae	<i>Enoplognatha testacea</i> Simon, 1884	x		
86	14	Theridiidae	<i>Euryopis episinoides</i> (Walckenaer, 1847)	x		
87	15	Theridiidae	<i>Euryopis sexalbomaculata</i> (Lucas, 1846)	x		
88	16	Theridiidae	<i>Heterotheridion nigrovariegatum</i> Simon, 1873	x		
89	17	Theridiidae	<i>Kochiura aulica</i> (C. L. Koch, 1838)	x		
90	18	Theridiidae	<i>Lasaeola</i> sp. 1			
91	19	Theridiidae	<i>Lasaeola</i> sp. 2			
92	20	Theridiidae	<i>Neottiura herbigrada</i> (Simon, 1873)	x		
93	21	Theridiidae	<i>Paidiscura dromedaria</i> (Simon, 1880)	x	x	
94	22	Theridiidae	<i>Pholcomma gibbum</i> (Westring, 1851)	x		
95	23	Theridiidae	<i>Phycosoma inornatum</i> (O. P.-Cambridge, 1861)	x	x	

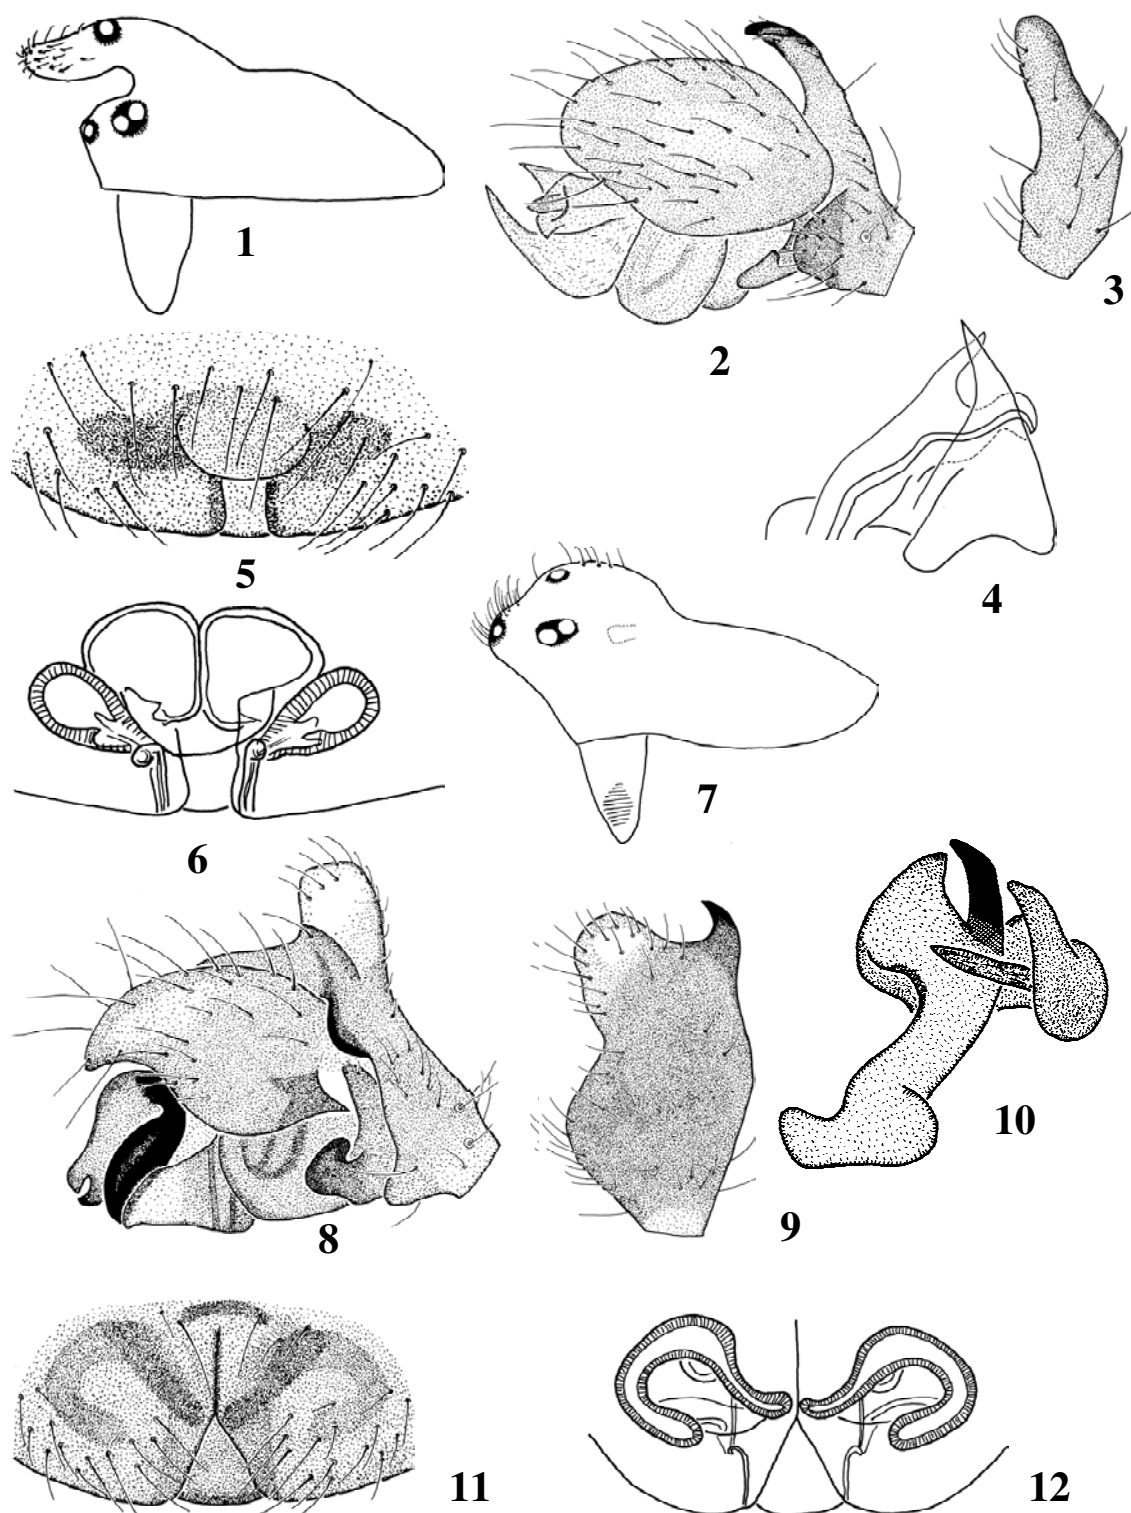

96	24	Theridiidae	<i>Phylloneta impressa</i> (L. Koch, 1881)	x		
97	25	Theridiidae	<i>Platnickina nigropunctata</i> (Lucas, 1846)	x		
98	26	Theridiidae	<i>Selimus vittatus</i> (C. L. Koch, 1836)	x		
99	27	Theridiidae	<i>Simitidion agaricographum</i> (Levy & Amitai, 1982)	x	x	
100	28	Theridiidae	<i>Simitidion simile</i> (C. L. Koch, 1836)	x		
101	29	Theridiidae	<i>Steatoda grossa</i> (C. L. Koch, 1838)			
102	30	Theridiidae	<i>Steatoda paykulliana</i> (Walckenaer, 1805)			
103	31	Theridiidae	<i>Steatoda triangulosa</i> (Walckenaer, 1802)	x		
104	32	Theridiidae	<i>Theridion adrianopoli</i> Drensky, 1915	x		
105	33	Theridiidae	<i>Theridion</i> cfr. <i>genistae</i> Simon, 1873			
106	34	Theridiidae	<i>Theridion</i> cfr. <i>melanurum</i> Hahn, 1831			
107	35	Theridiidae	<i>Theridion refugum</i> Drensky, 1928	x		
108	36	Theridiidae	<i>Theridion varians</i> Hahn, 1833	x		
109	1	Tetragnathidae	<i>Pachygnatha degeeri</i> Sundevall, 1830	x		
110	2	Tetragnathidae	<i>Tetragnatha extensa</i> (Linnaeus, 1758)	x		
111	3	Tetragnathidae	<i>Tetragnatha montana</i> Simon, 1874	x		
112	4	Tetragnathidae	<i>Tetragnatha nitens</i> (Audouin, 1826)	x		
113	1	Araneidae	<i>Aculepeira ceropegia</i> (Walckenaer, 1802)			
114	2	Araneidae	<i>Agalenatea redii</i> (Scopoli, 1763)			
115	3	Araneidae	<i>Araneus circe</i> (Audouin, 1826)			
116	4	Araneidae	<i>Araniella cucurbitina</i> (Clerck, 1757)	x		
117	5	Araneidae	<i>Argiope bruennichi</i> (Scopoli, 1772)			
118	6	Araneidae	<i>Cyclosa conica</i> (Pallas, 1772)	x		
119	7	Araneidae	<i>Cyclosa sierrae</i> Simon, 1870	x		
120	8	Araneidae	<i>Gibbaranea bituberculata</i> (Walckenaer, 1802)	x		
121	9	Araneidae	<i>Glyptogona sextuberculata</i> (Keyserling, 1863)	x		
122	10	Araneidae	<i>Hypsosinga pygmaea</i> (Sundevall, 1831)	x		
123	11	Araneidae	<i>Larinioides suspicax</i> (O.P.-Cambridge, 1876)			
124	12	Araneidae	<i>Mangora acalypha</i> (Walckenaer, 1802)	x		
125	13	Araneidae	<i>Neoscona adianta</i> (Walckenaer, 1802)	x		
126	14	Araneidae	<i>Neoscona subfusca</i> (C. L. Koch, 1837)	x

Addendum 2. Line drawing of some rare spider species of Lesbos.

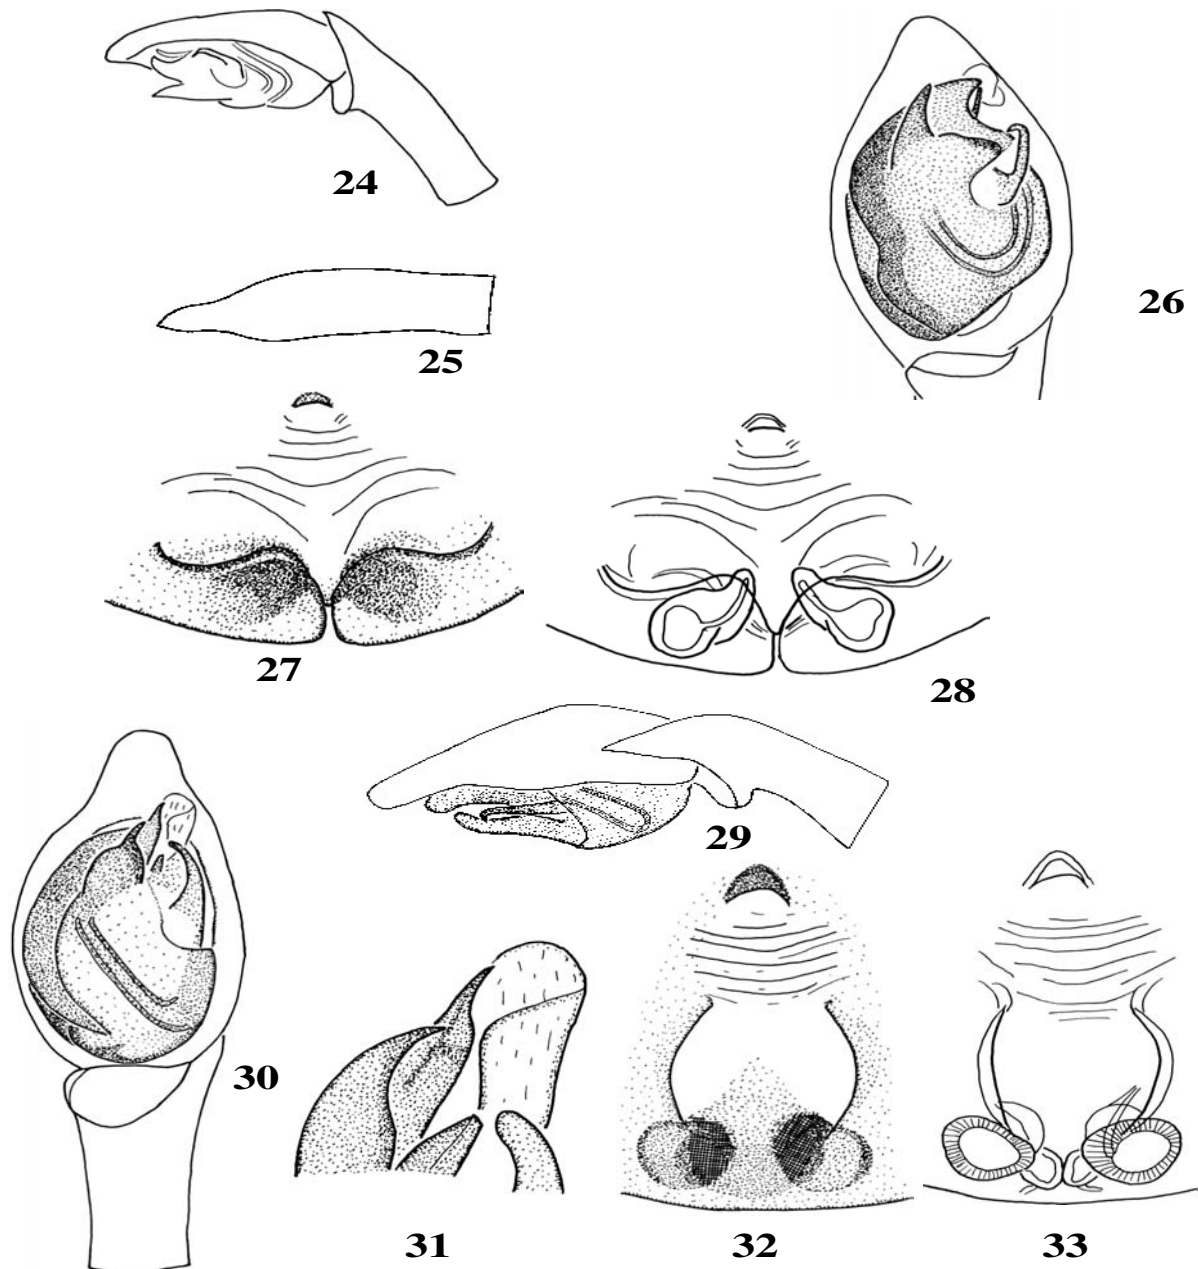

Figs 1-6. *Dactylopisthes digiticeps* (Simon). 1. Male prosoma, lateral view; 2. Male palp, retrolateral view; 3. Male palpal tibia, dorsal view; 4. Embolic division and suprategular apophysis, prolateral view; 5. Epigyne, ventral view; 6. Vulva, ventral view.

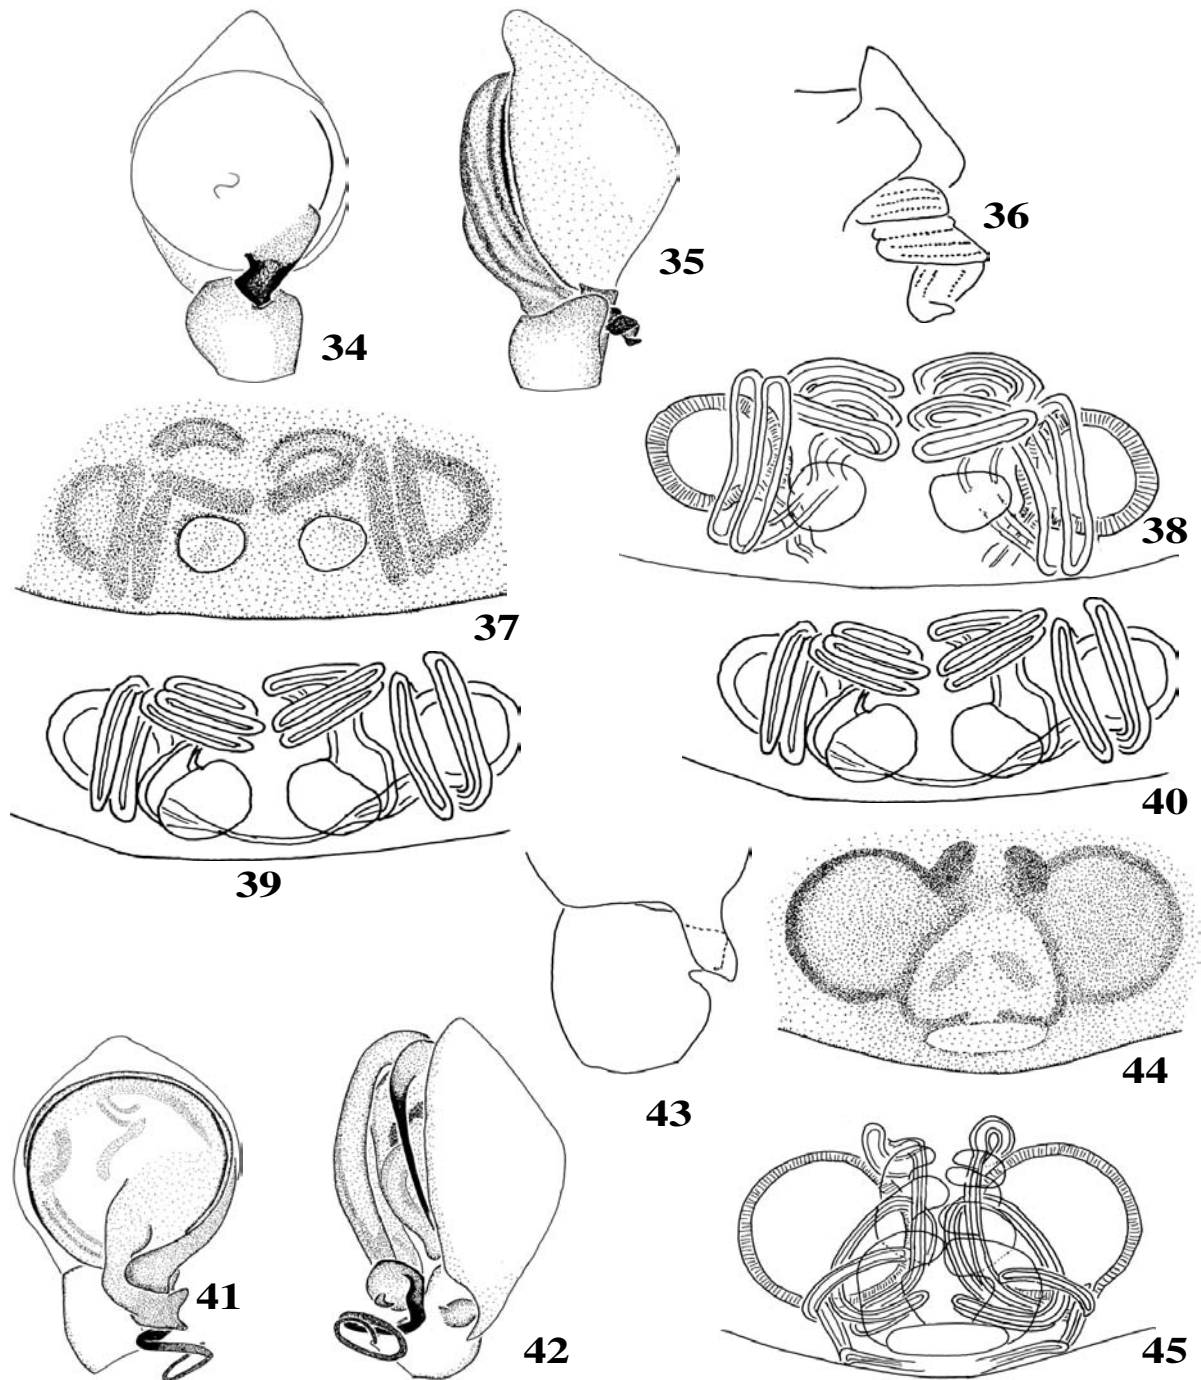

Figs 7-12. *Diplocephalus turcicus* Brignoli. 7. Male prosoma, lateral view; 8. Male palp, retrolateral view; 9. Male palpal tibia, dorsal view; 10. Embolic division, prolateral view; 11. Epigyne, ventral view; 12. Vulva, ventral view.

Figs 13-19. *Silometopus nitidithorax* Simon. Fig. 13. Male prosoma, dorsal view; 14. Idem, lateral view; 15. Male palp, retrolateral view; Fig. 16. Male palpal tibia, dorsal view; Fig. 17. Embolic division, prolateral view; Fig. 18. Epigyne, ventral view; Fig. 19. Vulva, ventral view.
Figs 20-23. *Walckenaeria abantensis* Wunderlich. 20. Male palp, retrolateral view; 21. Male palpal tibia, dorsal view; 22. Epigyne, ventral view; 23. Vulva, ventral view.

Figs 24-28. *Mesiotelus tenuissimus* (L. Koch). 24. Male palp, lateral view; 25. Male palpal tibia, dorsal view; 26. Male palp, ventral view; 27. Epigyne, ventral view; 28. Vulva, ventral view.
Figs. 29-33. *Mesiotelus skopensis* Drensky, 1936. 29. Male palp, lateral view; 30. Male palp, ventral view; 31. Terminal part of bulbus, ventral view; 32. Epigyne, ventral view; 33. Vulva, ventral view.

Figs 34-40. *Lathys arabs* Simon. 34. Male palp, lateral view; 35. Male palp, ventral view; 36. Tibial apophysis and horizontal part of conductor, dorsal view; 37. Epigyne, ventral view (Algeria); 38. Vulva, ventral view (Algeria); 39. Vulva, ventral view (Lesbos); 40. Vulva, dorsal view (Lesbos).

Figs. 41-45. *Lathys simplex* (Simon). 41. Male palp, lateral view; 42. Male palp, ventral view; 43. Tibia and basal part of cymbium, dorsal view; 44. Epigyne, ventral view; 45. Vulva, ventral view.

Addendum 3. Some photos of spider species of Lesbos.

Photo's 1-6, 9-12: Jan Bosselaers;

Photo's 7, 8, 13, 14: Sylvian Lecigne;

Photo's 15-20: Gilbert Loos.

Photo 1. *Holocnemus pluchei* (Scopoli)

Photo 2. *Harpactea* sp.

Photo 3. *Palpimanus uncatus* Kulczyn'ski

Photo 4. *Amaurobius erberi* (Keyserling)

Photo 5. *Arabelia pheidoleicomes* Bosselaers with ants

Photo 6. *Maimuna vestita* (C. L. Koch)

Photo 7. *Crustulina scabripes* Simon

Photo 9. *Geolycosa vultuosa* (C. L. Koch)

Photo 11. *Xysticus pseudorectilineus* (Wunderlich)

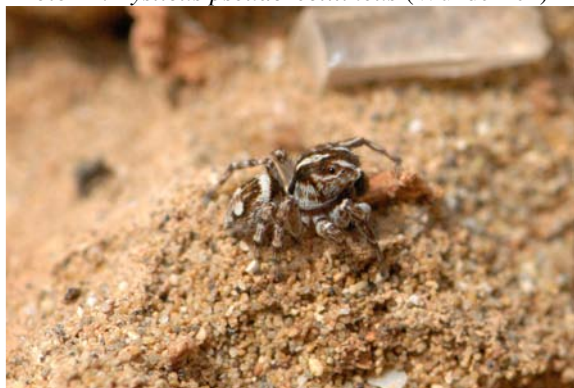

Photo 13. *Habrocestum egaeum* Metzner

Photo 8. *Neoscona subfusca* (C. L. Koch)

Photo 10. *Trachyzelotes malkini* Platnick & Murphy

Photo 12. *Anagraphis* cfr. *pallida* Hadjisarrantos

Photo 14. *Salticus mutabilis* Lucas

Photo 15. *Evarcha jucunda* Lucas

Photo 16. *Mogrus neglectus* (Simon)

Photo 17. *Sibanor albobimaculatus*, female

Photo 18. *Sibanor albobimaculatus*, male.

Photo 19. *Heliophanus melinus* L. Koch

Photo 20. *Thomisus onustus* Walckenaer
